

## 1 Team Lead comments

Dear Anton! Thank you so much for an amazing work! It's one of the best I've seen for this project. High technical execution and approach to the data. You're clearly one of the strongest student! Congratulations :)

Anastasia Piterskaia. Team Lead. Final Project

### Summary

Exceptional presentation skills, decent code, correct calculations and an extremely thorough analysis with lots of additional research, as well as solid conclusions.

And I was really impressed by that forecast analysis you did in the end -- that's a top notch work =)

I left just a couple of yellow notes regarding the conclusions and graphs -- but other than that I think this is one of the strongest projects I've seen on this sprint. Excellent job!

With that said, I'm accepting it and wish you the best of luck in your future studies! =)

Cheers!

Oh wow... I don't think I've seen anything like that from other students. I'm impressed!
